

3 September 1981

NOTE FOR: D/OA&E

FROM: DD/OA&E

[redacted] never completed a status memo for John Koehler on the Systems Acquisition Study. We do have a number of file folders of background material that we gathered. I will pass them to [redacted] to hold for future reference if you should wish to reinitiate this particular study. I think that, in view of the new program and budget system, it would probably be just as well to put this particular study on hold until the new approach is better defined.
